

## Printserver with 1 parallel Port DN-13001-W

### **Features**

- Compliant with Bi-directional 36-pin parallel port
- Equipped 10/100 auto-MDIX Fast Ethernet LAN port
- Multi protocol support is ideal for shared printing in mixed-LAN environments
- Windows-based setup program makes it possible to set up in a few minutes
- IP assignment support for DHCP
- Support Web configuration
- Provide Flash memory for easy firmware upgrade
- Support Mac OS and Unix / Linux

### **System Hardware :**

- CPU : RISC CPU
- SDRAM : 2M Byte
- Flash ROM : 512K Byte
- Power supply: 7,5VDC power adapter
- LED Indicator : Power, Status, Link/Act

### **System Software :**

- Real-time OS
- Supports : TCP/IP, IPX/SPX, Net BEUI
- Supports: LPR, IPP, SMB/TCP Raw Printing and Unix Logical Printing protocols
- Supports server based printing (Novell NetWare and Windows)
- Supports peer to peer printing: (TCP/IP, IPX, NetBEUI)
- Support O.S.: Windows 95/98/Me, Windows NT, Windows 2000/XP  
NetWare 3.x Unix, Linux, Mac O.S later.
