- Rack is completely mounted
- Large range of equipment available

DIGITUS® Server Cabinet Unique Series

Product Overview

The DIGITUS Server Cabinet Unique Series is designed and produced for the safe housing of server equipment. They provide maximum optimization resulted to an optimum performance in between quality and added value. Each cabinet is designed with strength, ease of use and aesthetics in mind.

The Unique Series is available in 4 heights, from 26 units up to 47 units, and a choice of either 600mm or 800mm widths, depth is 1000mm. The Unique Series is ideal for small and mid size server rooms through to multi Datacenter installations. The strength of the cabinet is the modular frame construction, which makes the cabinet very robust.

Key elements include air flow (high perforation 63%) and cooling management (ventilation). The Unique Series ensures easy access to equipment due to quick release side panels as well as the front and rear door. Each cabinet consists of two sets of heavy duty 19" mounting profiles, which can be adjusted throughout the depth of the cabinet. Between these profiles are 4 sets of front to rear strength members.

The Series come up with a carrying capacity up to 1000 kg. The swing handle lock incorporates a 4-point lock on front and 3-point lock on back side of the cabinet. All in all the Unique Server Cabinet is the perfect solution for your server room.
