Product Overview

The Digitus DN-82060 is a 10/100Mbps Fast Ethernet VDSL extender with Power over Ethernet (PoE) Capability. The transmitter unit is powered by PoE so no additional power supply is needed. This enables you to use the device even where no power lines or outlets are available. PoE is transmitted via coaxial or RJ45 network cable to the receiver, so you can achieve a maximum extension of up to 500 m.
